

Ejercicios de terminales

1. Crear tres carpetas:

Lo que hice fue usar el comando “cd” y desktop para dar la dirección de la ruta donde voy a poner las carpetas y luego verifiqué con “dir” que se hayan creado bien.

```
PS C:\Users\bitan> cd desktop
PS C:\Users\bitan\desktop> mkdir Empleado1

Directory: C:\Users\bitan\desktop

Mode                LastWriteTime         Length Name
----                -
d-----          07/10/2025      12:29             Empleado1

PS C:\Users\bitan\desktop> mkdir Empleado2

Directory: C:\Users\bitan\desktop

Mode                LastWriteTime         Length Name

d-----          07/10/2025      12:29             Empleado2

PS C:\Users\bitan\desktop> mkdir Empleado3
